tracekey solutions GmbH,
Alte Bahnhofstr. 20, 44892 Bochum

TRACEKEY SOLUTIONS

We are experts in the digitalization of highly regulated industries. Our software solutions are used worldwide by companies in the life science market. We interconnect brands, producers, logistics, and authorities with each other intelligently.

YOU ARE JUST RIGHT FOR OUR TEAM IF YOU...

- bring experience in the area of Java programming and also know how to use frameworks such as Spring, Hibernate, and Vaadin.
- enjoy topics such as big data and cloud technologies.
- additionally have experience in test automation.
- know about Linux, Azure, Ansible, Hadoop/HBase, Jenkins, Selenium.
- like to work in a team, and also independently.
- last but not least, you are fluent in English (spoken + written).

YOUR RESPONSIBILITIES ...

- You are fully involved in all phases of product development - from design to implementation, to quality assurance.
- You support the build and deployment process.
- You bear responsibility as your results have a direct influence on the next version of our software.

LOOK FORWARD TO...

- good opportunities for further training
- a birthday serenade from the entire company
- flexible working hours
- a family-friendly company
- remote or mobile office options
- an agile team with an international orientation
- daily fresh fruit and vegetables
- drinks flat rate and joint activities such as barbecue, breakfast, sports, etc.
